

It is our pleasure to invite you to participate at the Forth International Workshop on Bioinorganic Analytical Chemistry to be held on October 13 - 15 2006 in Pau.

The event was born as a place for exchange of ideas between our research groups. Motivated by its success, we decided to extend the invitation to other groups working in the field of bioinorganic speciation analysis.

The workshop is not meant to be another conference but a platform of exchange of ideas and experiences among young researchers. There are no invited speakers and the floor is for Ph.D. students and post-doctoral fellows only. The number of participants has been limited to 40-45 in order to assure an informal family atmosphere.

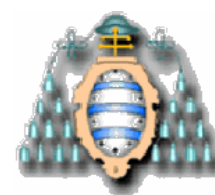

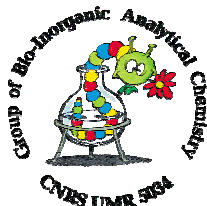

There is no registration fee and the cost 350 Euro per person includes accomodation (single room with breakfast in a decent hotel in downtown Pau for three nights), lunches, workshop dinners and half a day excursion in the high mountains (Pic du Midi de Bigorre; <http://www.picdumidi.com>) combined with the scientific session at the 2877 m altitude.

We do hope you accept our invitation by sending Ph.D. students, post-doctoral fellows working in your lab and/or coming yourself.

Looking forward to seeing you in Pau
